

Dear Customer,

It is only with professionally inscribed signs that the high functional and design quality of every Siedle intercom is fully brought to bear.

Lettering using our service guarantees good legibility, weather and UV resistance and is ideally matched to the product design.

Design examples

Enquiry form sheet for individual lettering

Only precisely fitting inserts and professionally lettered nameplates guarantee an optimum appearance. Use our drawings as a basis to identify your system. If in doubt, measure your lettering field or attach a photo to your enquiry.

Filling in the form

- Select the sign type to be inscribed and enter the name or lettering you require in the provided fields of the form, using one box for each letter.
- Enter the number with the same lettering.
- Please add your name and the delivery address, and send the completed form sheet to the Siedle lettering service.

Original font, original size

From top to bottom:

- Metal button with laser lettering
- Standard button made of transparent highly resistant plastic
- Engraved metal button
- Engraved metal button with black facing

Lettering carrier Lettering and material options

Siedle offers matching nameplates in various materials to suit the design line. All variants are available with two different fastening methods: With fastening from the front (visible fastening) or from behind (invisible fastening).

Font

The standard font is Helvetica New LT Com Condensed Medium 67 in font height 5 mm (measured at the upper case characters).

Standard text justification

In the Steel lettering fields, texts are centrally justified.

Design

The illustration shows four design variants for nameplates. The lettering you require is set for you in precisely the same font and font size as shown in the lettering examples.
