

# Siedle Delivery Box

## Sample systems

Video and details on the Siedle delivery box:  
[www.siedle.com/deliverybox](http://www.siedle.com/deliverybox)

The Siedle delivery box is individually planned and produced in the Steel Manufacture workshop to customer order. This document is therefore only intended to offer inspiration and initial ideas. We will be pleased to assist you with the configuration of your delivery box.

### Your contacts at Siedle

The Siedle dealership for your country will be pleased to supply you with an individual offer:

### Sample systems

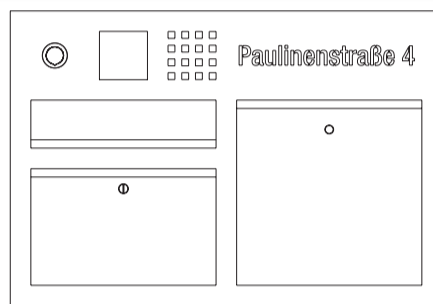

As a component of the Siedle Steel design line, the delivery box can be combined with all the functions required at an entrance. Door intercom, access control, lighting, inscription, etc. In terms of function and aesthetics, the entire system forms a unified whole.

### Technical requirements

The interplay between delivery box and Siedle app requires the IP-based communication system Siedle Access to be installed. The Siedle app is available from Apple's App Store.

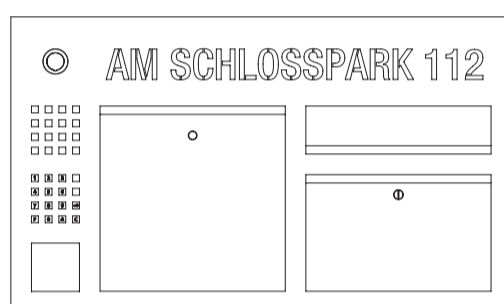

#### Version 1:

Delivery box combining video door communication and letterbox with removal door at the front in one system. Volume: approx. 60 l  
 Operating options via the App for Siedle Access.

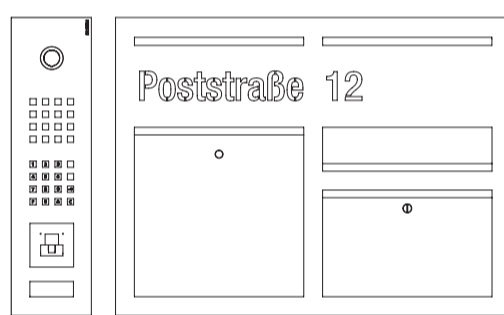

#### Version 2:

Delivery box combining video door communication and letterbox with removal door at the front in one system. Electrical unlocking by code lock. Volume: approx. 60 l  
 Operating options via the App for Siedle Access.

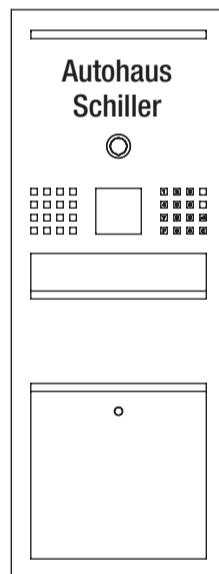

#### Version 3:

Delivery box with surface area light combining video door communication and letterbox with removal door at the back. The separate installation of the door communication allows the positioning to be adapted to the mounting situation. Electrical unlocking by fingerprint or code lock. Volume: approx. 60 l  
 Operating options via the App for Siedle Access.

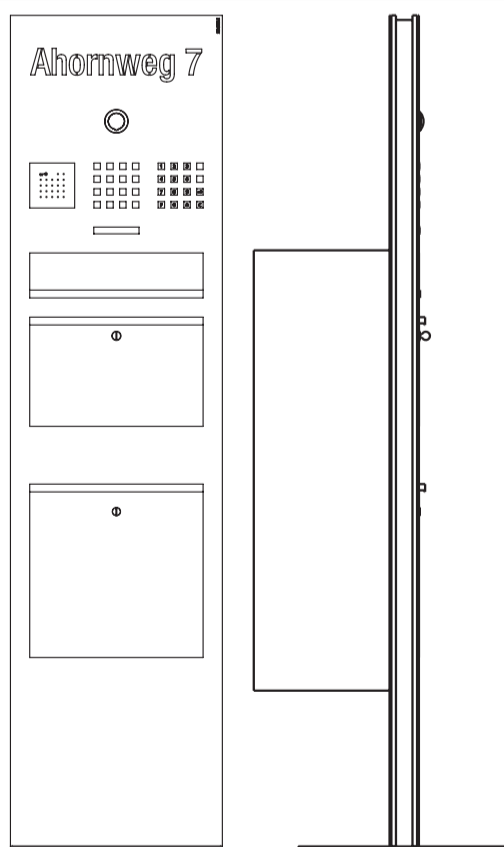

#### Version 4:

Delivery box with surface area light combined with video door communication and letterbox with removal door at the back. Electrical unlocking by code lock. Volume: approx. 60 l  
 Operating options via the Siedle App for Access.

#### Version 5:

Delivery box combining video door communication and letterbox as free-standing system. Electrical unlocking by code lock or electronic key. Volume: approx. 60 l  
 Operating options via the App for Siedle Access.

#### Version 6:

Delivery box with LED surface area light. The integrated pass-through function is suitable for situations such as night-time deliveries in an outbuilding. Opening by authorized persons via code lock or electronic key. Volume: approx. 80 l  
 Not linked to any specific Siedle system.
